

Corporate Risk Assessment

Activity being assessed: Llangatwg Community School Return to School, Alert Level 0, Local Risk Level HIGH.		Risk assessment reference number: Schools/AlertLevelZero/HighRisk Risk assessment created on: 17 th September 2021 Review date due: 22 nd October 2021		
Persons undertaking or affected by the activity				
<input checked="" type="checkbox"/> Employees <input checked="" type="checkbox"/> Contractor <input checked="" type="checkbox"/> Public <input type="checkbox"/> Service User <input type="checkbox"/> Other _____				
Hazard	Control measure	Likelihood	Severity	Risk Level
		1. Very Unlikely 2. Unlikely 3. Likely 4. Very Likely 5. Certainty	1. Negligible 2. Minor 3. Medical Treatment 4. Major 5. Fatal	<i>Likelihood x Severity = Risk Level</i>
Spread of COVID-19	<p><i>This risk assessment is a template for best practice in line with alert level 0 and the Welsh Government "Local COVID-19 infection control decision framework for schools from autumn 2021". If necessary, seek assistance from the relevant NPT/EDLLL section or your designated Health and Safety Officer.</i></p> <p>General</p> <ul style="list-style-type: none"> • Employees must follow any instructions and information related to controlling the virus. • Lateral Flow Test (LFT) will be continued to be offered to staff/secondary age pupils twice weekly. • All persons that are contacted via "Test, Trace, Protect" need to adhere to the guidance given. • Retain attendance records to support TTP contact tracers if needed. • Appropriate signage (including floor signage) in relation to Covid-19 measures is displayed throughout the school e.g. encouraging physical distancing, one way 	2	3	6

	<p>systems, room/lift capacity limits, do not enter if you have symptoms of Covid-19, etc.</p> <ul style="list-style-type: none"> • Any concerns in relation to control measures should be raised immediately with the head teacher, or a member of SLT. • Regular inspections and monitoring by SLT will take place to ensure rules are being adhered to. • Inspections by the Health and Safety Section will be undertaken when necessary. • All relevant statutory building checks have been undertaken. <p><u>School Workforce</u></p> <ul style="list-style-type: none"> • Staff and learners who are clinically extremely vulnerable should follow the current published Welsh Government guidance. These members of staff should continue to discuss with their schools how they will be supported e.g. individual risk assessment. • Those living with someone who is clinically extremely vulnerable can still attend work where home-working is not possible. • Staff who are at increased risk, as per current Welsh Government guidance, can continue to attend school. While in school they should follow the interventions to minimise the risks of transmission - including taking particular care to observe good hand and respiratory hygiene, minimising contact and maintaining physical distancing - and should have an individual workplace assessment. • People who live with those who are at increased risk can attend the workplace but should ensure they maintain good prevention practice in the workplace and home settings. • Staff who are pregnant are encouraged to take up vaccination and have a workplace risk assessment. If home-working is not possible, pregnant staff and their employers should follow the advice in the COVID-19: advice for pregnant employees. 			
--	--	--	--	--

Symptoms of Covid-19/Symptomatic person

The most effective way to prevent transmission of COVID-19 in schools is to stop infection being brought into the school.

- **Learners, staff and other adults should not come into school if they:**
 - ➔ have COVID-19 symptoms
 - ➔ if they live with someone who has symptoms or has tested positive for COVID-19 – unless they are fully vaccinated or are under 18.
- learners, staff and other adults must not come into a school/setting if they:
 - ➔ have tested positive for COVID-19
 - ➔ have been contacted by the TTP service and told to self-isolate
- All staff and volunteers are to be made aware of the symptoms of COVID-19 and watch for those symptoms in themselves and others – stay alert. Look for Flu like symptoms – high temperature, new constant coughing bouts (*this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours*) and/or a loss or change to your sense of smell or taste (anosmia).
- If any person/visitor/pupil is suspected of suffering symptoms they should be sent home immediately, or if this is not possible they should be isolated in a separate room (supervised as necessary) until they can be collected. The suspected case will be taken to a holding area in the Hall and allocated a seat by Office staff at a safe distance from other pupils. The seats will be wiped down afterwards with antibacterial wipes.
- Social distancing from the infected person must be exercised wherever possible to prevent the spread of the infection. Where this is not possible, the appropriate PPE must be worn. Refer to PPE section of this risk assessment.
- Where possible, an alternative exit route from the premises has been identified in order to ensure all other primary routes are not potentially contaminated. Pupils suspected of Covid symptoms will leave via the side fire exit of the Hall.
- Personal hygiene after contact with the symptomatic person must be exercised to ensure that the spread of the infection is controlled.
- All areas where a symptomatic person has entered are segregated until a deep clean (level 2) is carried out. If it's a classroom, then pupils are to be moved to the

	<p>Conference Room and adjoining room as an alternative area for the interim period.</p> <ul style="list-style-type: none"> • If a cluster/outbreak is identified by TTP, appropriately trained cleaning staff will carry out a deep clean (Level 2) of the affected areas. A trained cleaner will be available throughout the day. • All potentially contaminated waste will be placed into a black bag, sealed and placed inside a second black bag and stored in the compound, away from all other waste until 72 hours has passed when it will be disposed of in the normal manner. • The equipment that the pupil/employee has been in contact with must be withdrawn from circulation and thoroughly cleaned and disinfected before being allowed back into circulation. Any Technology equipment that cannot be cleaned should be isolated for 72 hours. <p><u>Physical Distancing</u></p> <ul style="list-style-type: none"> • Parents gathering in the school playground to be discouraged. • Large group gatherings such as assemblies are not to take place. • Ensure there is appropriate signage on display at the entry points reminding parents and visitors to respect other peoples space/physical distancing. Signage should be revisited and refreshed if needed. • Staff should maintain distance from their learners, staying at the front of the class where possible. Yellow and Black tape will be used to provide a guidance on an appropriate distance. • The use of one way systems will be implemented in the indoor sections of the Maths, Science, Main and Technology Blocks. Due to rooming and logistical issues the Old block will not have a one way system as most of the rooms are exterior. • Where possible, seat pupils side by side and facing forward. • Consistent seating plans have previously been introduced in the classrooms and need to be adhered, where possible (recognising this may not be possible for younger learners, and those who require 1:1 support/Additional Learning Needs). 			
--	--	--	--	--

	<ul style="list-style-type: none"> • Physical distancing between staff should be maintained wherever possible to reduce the risk of the spread of the COVID-19 virus e.g. corridors, communal areas, staff rooms, meeting rooms, passenger lifts, etc. • Meeting/Staff rooms should be assessed to determine how many people are permitted to enter meeting rooms whilst maintaining physical distancing. • Only the Main Staff room can be used for break periods. This has been assessed so that only 8 staff are allowed at any one time. <p><u>Ventilation</u></p> <ul style="list-style-type: none"> • Where possible, staff are encouraged to use outdoor spaces for activities. • Schools must ensure an adequate supply of fresh air (ventilation) in enclosed areas. • Natural ventilation to be increased through opening windows and non-fire doors where possible. • The airing of rooms via windows and non-fire doors at break, lunch times and prior to the start of the school day should be encouraged. • Where possible, encourage staff to open top/high level windows (this helps to prevent draughts), and moving obstructions such as curtains/blinds. • Desk fans may be used to prevent pockets of stagnant air only where the area is well ventilated. Desk fans to be pointed away from people and pointed at walls etc. • Small rooms have identified maximum capacity limits to ensure greater dilution. Meeting rooms and offices will have signage stating maximum room occupancy. • Checks to be carried out to ensure windows, grids and airbricks are not obstructed. Check that they all function correctly and identify areas that are poorly ventilated. • Any areas of poor ventilation/stagnant air then consideration will be given to obtaining a CO₂ monitor (NDIR) type, or putting these areas out of bounds or 			
--	---	--	--	--

limiting their use. Schools to monitor the readings of the CO₂ monitor and take appropriate actions.

Hand/Respiratory Hygiene

- Learners should clean their hands regularly, including when they arrive at school, when they return from breaks, after using the toilet, when they change rooms and before and after eating. Regular and thorough hand cleaning is going to be needed for the foreseeable future.
- Ensure enough hand washing or hand sanitiser 'stations' available so that all learners and staff can clean their hands regularly. Caretakers will check and replenish stock when needed.
- Hand sanitiser must be stored away from ignition sources such as, sunlight, heat, open flames, hot surfaces, sparks, etc. It must be stored in a cool place.
- As good practice, hand washing posters to be placed in toilet areas to remind pupils/staff of good handwashing techniques.
- Pupils encouraged to catch a sneeze or cough using their elbow or a tissue, dispose of tissue and reminded to then wash their hands. The 'Catch it, bin it, kill it, Wash your Hands' approach.

Cleaning

- Cleaning will take place using appropriate cleaning products, in line with general cleaning procedures (e.g. end of day clean).
- Staff to be encouraged to wipe down during the day, where possible, using standard products, including wipes. Contact the Main Office if supply is running low.
- Wipes to be available in staff rooms, to utilise after using communal equipment (kettles, microwaves etc.).
- Where possible, provide separate toilets for different groups of learners. Signs will be placed on doors to indicate which Year groups are allowed to use the toilets. Where this is not possible, ensure hand sanitiser is used before entering the toilet and that toilets are cleaned regularly.

Face Coverings

- Face coverings should be worn by secondary aged learners when moving around indoor communal areas outside of the classroom, such as corridors, where physical distance cannot be maintained.
- Face coverings should be worn by staff and visitors in schools when moving around indoor communal areas outside of the classroom, such as corridors, where physical distance cannot be maintained.
- Face coverings must be worn in any area of the building where the public visit, for example when they enter/exit a building which is open to the public via the reception area.
- Staff working in public areas where there is a Perspex screen shielding the employee from the public are not required to wear a face covering.
- Face coverings should continue to be worn by learners in secondary schools and settings when travelling on dedicated school transport.
- A person does not have to wear a face covering if they have a reasonable excuse not to wear one.

Personal Protective Equipment (PPE)

- When using PPE hands must be washed both before and after use.
- Staff (especially First Aiders) who will be required to use PPE will be provided with information on how to don and doff it correctly.

Routine activities

- No PPE is required when undertaking routine educational activities in classroom or school settings. Practical Technology lessons may require pupils to wear face coverings if an appropriate 2m distance cannot be achieved during instructional activities, or where one-one assistance is needed.

General clean of premises

- PPE in line with your COSHH risk assessment must be worn.

	<p>Suspected coronavirus (COVID-19)</p> <ul style="list-style-type: none"> • Gloves, aprons and a fluid-resistant surgical mask should be worn if a child or young person becomes unwell with symptoms of COVID-19 and needs direct personal care. • Eye protection should also be worn if a risk assessment determines that there is a risk of splashing to the eyes such as from coughing, spitting, or vomiting. • A Level 2 clean must take place when cleaning the areas where a person suspected of having COVID-19 has been. The risk assessment identifies the PPE required when undertaking this activity as being disposable gloves, disposable apron, FR(IIR)SM and goggles. <p>Intimate care including administering first aid</p> <ul style="list-style-type: none"> • Gloves and aprons should be used when providing intimate care to a child or young person. This can include personal, hands-on care such as washing, toileting, or first aid and certain clinical procedures such as assisted feeding. • Fluid-resistant surgical mask and eye protection should also be worn if a risk assessment determines that there is a risk of splashing to the eyes such as from coughing, spitting, or vomiting. • Gloves and aprons should be used when cleaning equipment or surfaces that might be contaminated with body fluids such as saliva or respiratory secretions. <p><u>Mental Health and Wellbeing</u></p> <ul style="list-style-type: none"> • Management will promote mental health & wellbeing awareness to staff during the Coronavirus outbreak and will offer whatever support they can to help. <p><u>Emergency Procedures</u></p> <ul style="list-style-type: none"> • The emergency evacuation procedure has been reviewed and communicate to staff/pupils. It is recommended that a fire drill is carried out to ensure the amended procedure is understood. Staff, or pupils, who require a Personal Emergency Evacuation Plan (PEEP) will need to seek advice from the Facilities section. 			
--	---	--	--	--

	<ul style="list-style-type: none"> • In the event of an emergency, follow the emergency procedures in place at that building. • Ensure there are sufficient numbers of appropriately trained first aiders available. They should follow the training they have received and use PPE as detailed previously. Practice good hygiene by washing/sanitising hands before and after administering first aid.

Additional risk information

In the event of an incident/accident, please contact your nearest first aider. All incidents/accidents must be recorded on NPT's Online Accident Reporting System. Suitable information, instruction and training on how to use, store and maintain Personal Protective Equipment (PPE) correctly to be provided. All staff to have regard for their and others health and safety at all times.
